

Learning objectives – mandatory

The fulfilled and assessed learning objectives must be marked **by the student** with an x.

The **assessment** can be performed by the mentor in three ways: **direct observation** of the student during performance of a clinical activity (see page ii), **CPY task** (see page P4-P6), **Mini-CEX/DOPS** (see page v-vi). At the end of completion of the CPY tertial in the respective department, fulfilment of the learning objectives must be signed off by the mentor.

Competence	Objectives completed
Implementation and design of a scientific or didactic project by:	
1. Formulation of a verifiable scientific or current didactic concept	<input type="radio"/>
2. Literature research	<input type="radio"/>
3. Creation of the project	<input type="radio"/>
4. Data collection / analysis or evaluation	<input type="radio"/>
5. Presentation (oral or written)	<input type="radio"/>
Verified by mentor	

Learning objectives – optional

In addition to the competences that are mandatory to achieve, optional competences from the training programmes may also be acquired.

Competence as per training programme	Objectives completed
1. Preparation of reagents	<input type="radio"/>
2. Preparation or isolation of biological sample material	<input type="radio"/>
3. Performing a biometric measurement	<input type="radio"/>
4. Implementation of an analytical (bio)chemical detection procedure	<input type="radio"/>
5. Carrying out a medical physiological test	<input type="radio"/>
6. MedUni Vienna training and further education events (seminars - diversity, MLW, PE (e.g. didactics, statistics, methodology, etc.))	<input type="radio"/>
7. Attendance of external training and advanced training events (congresses, DFP training courses, etc.)	<input type="radio"/>
